Ahmedabad, GJ 380005    <https://github.com/devasyagupta>

### SUMMARY

Computer science undergraduate with hands-on experience in java and python, foundational knowledge of Artificial Intelligence and Machine Learning, and frontend development using HTML, CSS, and JavaScript. Experienced in building academic and personal projects involving databases, version control with GitHub, and problem-solving using object-oriented principles.

### EDUCATION

#### Bachelor Of Technology In Computer Science

##### GLS University

08/2023 - 05/2027    Ahmedabad, GJ

#### High School Diploma

##### Green Valley School

06/2019 - 05/2023    Ahmedabad, GJ

### EXPERIENCE

#### Intern

##### MetrixHealthcare India

01/2023-11/2025    Ahmedabad, GJ

A healthcare company focused on innovative solutions and services

- Assisted in process automation and data handling for internal operations.
- Worked with structured data and documentation workflows
- Collaborated with teams to improve response efficiency by 20%
- Applied problem-solving and technical thinking to real-world workflows

### SKILLS

Python	Java	Artificial Intelligence(Basic)		
Machine Learning(Basics)		HTML	CSS	JavaScript
MySQL	Git & GitHub	Object Oriented Programming		
Problem Solving				

### KEY ACHIEVEMENTS

#### Academic Achievements

Awarded the Merit Based Scholarship and the Hall Of Fame Award in 2024 for outstanding academic performance

### LANGUAGES

#### English

Native

#### Hindi

Native

### PROJECTS

#### HireLoop-AI- powered Resume Tailoring Platform

06/2025 - Present    Ahmedabad, India

Python,AI&ML,HTML,CSS,JS

- Built user interface and resume upload workflow
- working on resume-job description matching logic using ML and NLP concept

#### Fake News Detection System

08/2025 - 12/2025    Ahmedabad, India

Python,ML,NLP,SickIt Learn, Pandas

A machine learning based system that classifies news articles as real or fake using text preprocessing, feature extraction, and supervised learning models.

#### Satellite Image Classification Model

06/2025 - 08/2025    Ahmedabad, India

Python,TensorFlow,DeepLearning,CNN

A deep learning project that classifies land cover types from satellite images, enabling environmental analysis and monitoring through image-based predictions.
